

# Multihog<sup>®</sup>

One Machine - One Driver - Endless Applications

### CityVac Vacuum Sweeper MHCV09/MHCV11

- Ideal for street sweeping and urban sanitation, the CityVac sweeper is designed for the CX range
- 1.1m<sup>3</sup> (1.5 yd<sup>3</sup>) collection container capacity on the CX 55 L / CX 75
- Large fan for superior suction with fan airflow of 8500 m<sup>3</sup>/h (5000 cfm) per hour
- The Multihog's hydraulic pump allows the sweeper to operate at low engine speeds of 1200 RPM, reducing fuel consumption and noise pollution
- The low noise fan is not exposed to collected litter, limiting the risk of damage/wear on the blades
- The 205 mm (8") vacuum hose is heavy-duty, flexible and microbe-resistant
- A joystick inside the Multihog cabin gives the operator intuitive control of the vacuum hose
- High tip feature with a dumping height of 1775 mm (70") enables the operator to tip directly into a skip or trailer
- Easily accessible 10 micron exhaust air filter located at the rear ensures that only clean air is expelled from the CityVac
- Reach angle 150 degrees, forward reach angle 30 degrees
- Reach from center 2300 mm (7.5 ft), forward reach 1650 mm (5.4 ft)
