

Multihog[®]

One Machine - One Driver - Endless Applications

Flail Arm/Boom Arm Mower KBM 350

- The KBM 350 flail or boom arm mower is designed specifically for small tractors and is ideal for the Multihog CX range
- Designed for mowing of grass on embankments and verges along the highway
- The arm is front-mounted on the Multihog and is hydraulically driven
- Compact design means the arm folds up in front of the Multihog for easy transport
- Easy operation whilst mowing via joystick located within the operator cabin
- The arm is equipped with a flail mower head as standard, however other additional accessories are available including sign washer, hedgecutter, weed brush and ditch cleaner
- Reach of the KBM 350 arm is 3.5 metres (11.5 ft)
- Clear view during transport - width when folded in front of the Multihog is 1.65 metres (5.4 ft)
- Arm can work on the left and right of the Multihog
- Swivel angle of the arm is 270°

Due to our policy of continuous improvement, specifications may change subsequent to publication of this sheet.
