One Machine - One Driver - Endless Applications

Flail Mower MMU - H

- The Muething flail mower is a heavy duty mulcher designed for use on our CX tractors
- Available in various working widths, ranging from 1.2 - 2.2 metres (4 - 7 ft)
- Overall width of the mower ranges from 1.4 - 2.4 metres (4.6 - 7.9 ft)
- The mower is easy to mount on the CX tractor using the 3 point linkage
- Features a mechanical side shift of 40 - 56 cm (15.5 - 23.5 in), depending on model
- V belt protection with control opening
- Reinforced "M" hammer flail heads, manufactured from special steel
- Patented "shark fin" close cutting system
- Good ground clearance and support roller for height adjustment of the mower
- Mower is operated via joystick within the Multihog cabin, so the operator stays warm and dry

Due to our policy of continuous improvement, specifications may change subsequent to publication of this sheet.
