One Machine - One Driver - Endless Applications

High Pressure Washer

KPL 220/460

- Front-mounted high pressure washer with models available to suit CX, MX & MH ranges
- Ideal for sanitation & cleaning in municipalities, highway maintenance agencies and facilities management companies
- 1850 mm (6 ft) wide front-mounted spray bar with 9 spray nozzles
- 220/460 bar (3190/6672 psi) pressure options available
- Additional spray bars may be added to the main spray bar, meaning the operator can use just 3 nozzles to target a specific area at higher pressure if required
- Spraying capacity of 50 litres per minute
- Rear-mounted water tank capacity ranges from 1200 - 1600 litres (317 - 422 US gal)
- Spray bar can be swivelled hydraulically to work at an angle if required
- 20 metre (21 yd) high pressure hand lance operates at 500 bar and may be used to clean inaccessible areas manually
- The high pressure washer is fully operated via joystick from within the Multihog cabin, ensuring the operator remains warm and dry, whilst also reducing risk of accident/injury
