One Machine - One Driver - Endless Applications

Heavy Duty Mulcher MHDM 2000

- Heavy duty front-mounted mulcher ideal for dense grass, bushes, brushwood and scrub
- The mulcher can also handle land reclamation, vegetation control & removal of dead trees & plants
- Mulching width is 2000 mm (6.5') with various other widths available
- Side-shift feature for mulching in hard to reach areas, and also for mowing around obstacles such as signposts, trees and bushes
- Mulcher is controlled via joystick from within the cabin, ensuring the operator stays warm and dry
- Heavy duty pushing frame
- Dual tyres can be fitted, offering extra support when mowing on extreme slopes
- Hydraulic hood and adjustable skids come as standard

Due to our policy of continuous improvement, specifications may change subsequent to publication of this sheet.
