

Multihog[®]

One Machine - One Driver - Endless Applications

Weed Brush & Edging Blade

MWB 90-45

- 2 in 1 combined weed brush & edging blade attachment, suitable for all Multihog tractors
- All rotation & swivel functions are controlled via joystick from within the Multihog cabin
- Can trim most grass verges and brush most surfaces
- Edging blade is fully retractable, meaning that weed brushing alone can be carried out
- Brush is adjustable in all directions; height and width of edging blade can be hydraulically adjusted
- Environmentally friendly & sustainable weed control method - uses no toxic substances
- Extra large weed brush developed to operate at low revs, preventing damage to brushed surfaces
- Fitted with pressure-regulated valves, preventing blade from moving into unwanted positions
- Very low operating noise levels
- Weed brush diameter 90 cm (35 in), edging blade diameter 45 cm (18 in)

Due to our policy of continuous improvement, specifications may change subsequent to publication of this sheet.
